2. I strongly recommend Dr. Li to anyone looking to take OSCM 3337.
3. Professor Peng is a good man with a heart of gold. I had a massive water leak in kitchen from the neighboring apartment, missed an exam, he let me take the exam as a make up. I really learned quite a bit and am looking forward to having him again next semester
4. Professer Peng did an incredible job teach logistic management. Especially since it is his first time teaching this course. HE was always full of energy which kept me engaged.

7. Made it easy to understand, and we enjoyed his games and presentation feedback. Great professor!

8. I would recommend more detailed instructions in the activities
9. Dr. Li has the potential to become a fantastic professor. I believe if he taught with more tonality and power in his delivery, he could become a very engaging professor to be lectured by. As is, I felt sometimes lost in class. He was very friendly and always available to help, which I highly appreciated and cannot be understated.
10. The professor asked questions to make sure we understood the course material. Guided us and helped us with all that we needed to know and made sure we could get an A if we worked hard.
